

ABSTRACT

College notes gallery helps users to upload, download and manage notes of their particular course. It contains just a user side. All the management are done from the user side like uploading the reading materials. From the user side, the users can view the dashboard and see the contents available there. Through this site, the college can maintain the student's notes with more ease. He/She can upload them and also can download them.

This project intends to provide the students with an environment where they can upload their notes online. This project has only a single agenda, that is, to allow students to upload their study materials online like google classroom. Here you have to sign up inorder to upload any kind of files. When you sign up then you can view the uploading dashboard. From there you can upload your files and later on you can download them.

Features such as Editing site content, user management, and site settings are the most essential feature of a site. And these all features have made management of site easier as the user can change the content and setting any time he/she wants. A clean and responsive dashboard is provided in the admin panel for the easy management of this system.

ACKNOWLEDGEMENT

On presenting the Web Technology Mini Project report on “**COLLEGE NOTES GALLERY**”, We feel great to express my humble feelings of thanks to all those who have helped us directly or indirectly in the successful completion of the project work.

We would like to thank our respected guide **Mr. Jagadesha R**, Assistant Professor, Dept. of CS & E, who has helped us a lot in completing this task, for his/her continuous encouragement and guidance throughout the project work.

We would like to thank **Mr. Santhosh S**, Associate Professor & HOD, Dept of CSE, KIT, Tiptur and **Dr. Nandeeshiah**, The Principal, KIT, Tiptur for all their support and encouragement.

We are grateful to **Department of Computer Science and Engineering** and our institution **Kalpataru Institute of Technology** for imparting us the knowledge with which we could do our best.

Finally, we also would like to thank the whole teaching and non teaching staff of Computer Science and Engineering Dept.

Thanking you all,

Pooja K 1KI15CS057

CONTENT

Chapter 1: INTRODUCTION 1-7

1.1 Introduction to web.....	1-6
1.1.1 HTML.....	2
1.1.2 CSS.....	3-4
1.1.3 PHP.....	4
1.1.4 JavaScript.....	4-5
1.1.5 XML.....	5
1.1.6 MySql.....	6
1.2 Introduction to the title of project.....	7
1.3 Scope of the project.....	7
1.4 Organization of the project.....	7

Chapter 2: REQUIREMENT ANALYSIS 8

2.1 Software requirement specification.....	8
2.2 Requirements.....	8
2.2.1 Software requirements.....	8
2.2.2 Hardware requirements.....	8

Chapter 3 : ANALYSIS AND DESIGN 9-10

3.1 Project description.....	9
3.1.1 Objective.....	9
3.1.2 Instruction.....	9
3.2 System architecture.....	10

Chapter 4 : IMPLEMENTATION	11-17
4.1 Programming language used.....	11-13
4.2 Style sheet incorporation.....	13-15
4.3 UI and Functionality implementation.....	15-17
4.4 Database omplemrntation.....	17
Chapter 5 : TESTING	18-20
Chapter 6 : RESULTS AND SNAPSHOTS	21-28
Chapter 7:CONCLUSION AND FUTURE SCOPE	29
7.1 Conclusion.....	29
7.2 Future scope.....	29
